SUMMARY				

Important note: Images are different in Google Earth and GoogleMaps. See pages 6, 7, 8. Features were hard to find in GoogleEarth, but easy to find in googlemaps.

Google Earth is easy to find latitude and longitude.

Google maps is clearer view of features.

Bing maps also shows features clearly. Right click point to see latitude and longitude.

Here WeGo - I cannot find features in online version.

Apple maps - I cannot find online maps

OSM - no satellite imagery.
